

Gail Hinte

Partner
Himformatics LLC

A seasoned information technology (IT) leader and Himformatics partner, Gail Hinte brings a wealth of experience to help healthcare executives with IT initiatives that support business goals. Clients count on her to conduct strategic planning, process redesign, system selection and implementation programs to meet objectives. Her impartial advice, deep expertise and humor have earned her the respect of hospital executives and staff alike.

Based in North Carolina, Gail is well versed in statewide initiatives and current on the latest technology and requirements pertinent to executives. Before joining Himformatics, Gail provided healthcare consulting services through First Consulting Group (now CSC) and Cisco Systems. She has worked within a range of hospital, ambulatory, payer, long-term care and pharmaceutical organizations, and also served as an interim CIO for a multi-hospital system with an IT staff of more than 150 members.

Over more than two decades, Gail has built a reputation for bringing the right level of resources to each engagement based on business needs. She has initiated and managed a wide array of programs including ICD-10 and Meaningful Use, implemented Epic Systems and governance structures, and delivered cost-benefit analysis models and physician outreach.

Gail is known for her integrity, tenacity and ability to get the job done. She earned an MPA/Health from Suffolk University and a bachelor's degree from Assumption College.

About Himformatics Himformatics harnesses IT and business expertise to help clients deliver healthcare in a way that makes a difference. From strategy to implementation, our select team of consultants specializes in getting the most value from IT to improve clinical processes and financial performance, and ensure regulatory compliance. Our expertise spans a range of comprehensive and specialized services for healthcare organizations big and small. We draw on our decades of experience to earn a place as a trusted adviser to your business, and we thrive on delivering exceptional service and results.
